

Build With Us!

Durable, Customizable Metal Building
Systems for Multiple Applications

Systems from Central States Building Works come with unparalleled project expertise and support. From estimating and drafting to contracting and engineering, Building Works is your trusted partner for pre-engineered metal buildings. We help you enhance your reputation through superior accuracy and outstanding customer service.

We Offer...

Building Works provides complete building systems to meet your customers' requirements.

- Warehouses
- Workshops
- Agricultural
- Industrial
- Manufacturing
- Residential Shops and Garages
- Sports and Recreation
- Self-storage

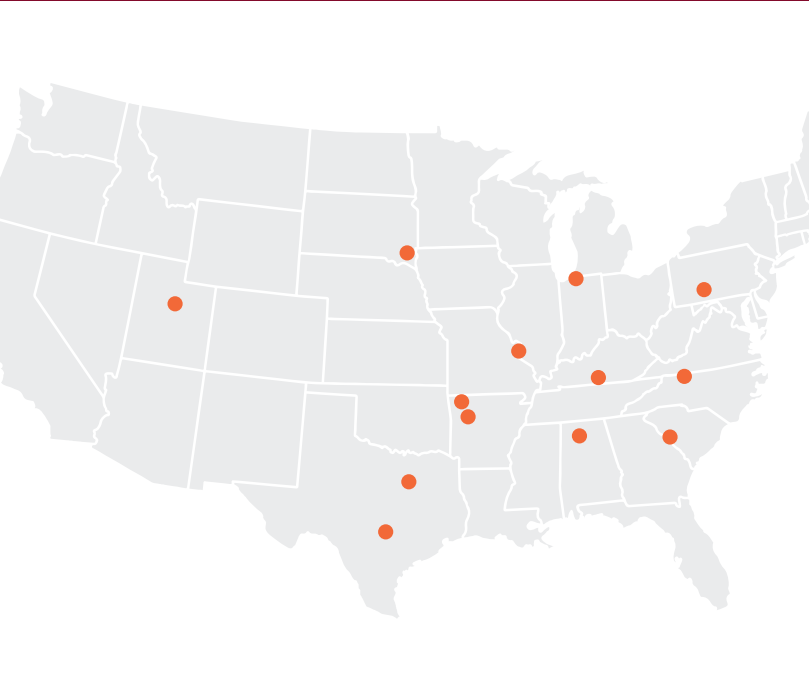

So Many Benefits...

A partnership with Building Works brings you vital competitive advantages:

- **Quick turnaround:** we can rapidly deliver a complete set of erection and engineer stamped drawings to expedite your project, (within two weeks after the contract signing for simple units)
- **Design tools to build your business:** our Building Design Suite quote tool in Central Link is your secret weapon for quick and accurate real-time estimates for self-storage
- **Branded for your business:** our private label manufacturing service features your brand on drawings, bills of lading and shipping documents, and we offer COD pick-up
- **Top quality:** Central States steel with a Lifetime Limited Warranty on a range of paint colors and panel profiles. See website for full details
- **Delivery you can count on:** fast, accurate delivery to your customer's job site. Thousands of projects delivered with high customer feedback
- **Industry-leading customer service:** a dedicated business development manager and project team provide exceptional support and expertise
- **Simple Installation:** key building parts are marked and referenced on construction drawings details

Right. On Time. Every Time.®

Building Works delivers with precision and exceptional service. We are a manufacturer who can optimize your business across 11 Central States manufacturing plants, designed to meet your needs with the highest quality standards.
