

# JM EPDM FIT SELF-ADHERED

SINGLE PLY ROOFING

UP TO 3X FASTER INSTALLATION  
THAN TRADITIONALLY ADHERED EPDM\*

## ADVANTAGES OF CHOOSING SELF-ADHERING EPDM:

### FAST-ADHERING INSTALLATION

*with factory-applied adhesive for "peel and stick" application. No adhesive flash-off needed*

### WIDE TEMPERATURE RANGE

*for installation at 20°F and higher†*

### NO ADDITIONAL VOC-CONTAINING ADHESIVES

*Great for hospitals and schools*

## STARTS STRONG & STAYS STRONG

Easy-to-apply JM EPDM FIT SA adheres strong at installation and stays strong for the life of the roof.

*Every Roof Is Our Reputation*

\*Installation times may vary depending on conditions  
†APA OSB for vertical applications in temperatures between 20 °F - 40 °F the membrane must be installed using the JM All Season Sprayable Bonding Adhesive, JM SA Primer or JM SA Primer LVOC
