About Us!

"QUALITY & EXCELLENCE! - SINCE 2007"

Pioneer Metals is a family business founded in 2007, which specializes in supplying premium metal roofing materials!

"Our aim is to ensure we can supply

**the RIGHT PRODUCT,
for YOUR PROJECT,
at the RIGHT PRICE,**

**and deliver that service in a way
that suits your needs!"**

Our Mission

"At Pioneer Metals, we pride ourselves on professionalism and quality service and distinguish ourselves as one of the fastest in the industry with our incredible **48-hour order turnaround!**"

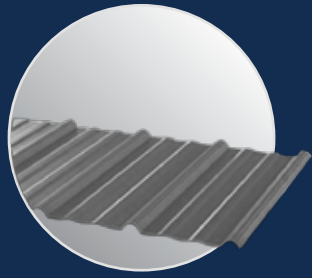

Our Customers Matter!

"We are committed to invest in building and establishing long-lasting relationships with our customers; striving to deliver exceptional service paired with the finest product!"

We Stand By Our Products!

"Our close working relationships with some of the nations most respected - *and well-known suppliers in the industry* - ensure we can offer premium products that are reliable and keep their durability for decades!"

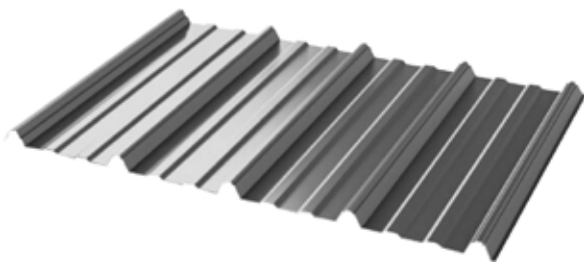

Low-Rib

OUR MOST COST-EFFECTIVE METAL ROOFING

Affordable | Popular | Used for Carports | Residential | Post-Frame and More!

Low-Rib - our most cost-effective metal roofing panel - is visually appealing, durable, and energy efficient.

This product is mostly used for carports, shelter applications, post-frame, and residential roofing.

High-Rib

MOST POPULAR & VERSATILE METAL ROOFING

Leak Resistant | Classic Aesthetics | Durable and Strong!

High-Rib - our most popular and versatile metal roofing panel - is the industry leading profile in strength and durability for commercial, industrial, and agricultural applications.

Featuring classic aesthetics and multifunctional use – i.e. it can be installed in various applications, including: roofing / walls (for residential or commercial use) and post-frame buildings.

RECOMMENDED 1:12 PITCH AND ABOVE	24 OR 26 GAUGE	36" OVERALL COVERAGE	1 1/4" RIB HEIGHT
--------------------------------------------------	---------------------------------------	-----------------------------------	-----------------------------

Standing Seam

MOST FAVORED & APPEALING PROFILE

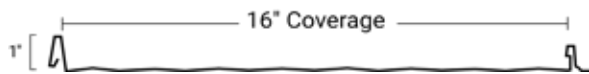

Weather Resistance | Appealing Design | Crinkle Finish Available!

Standing Seam - our most desired roof panel - is often used on a wide-range of architectural buildings and high-end homes due to its appealing design and superior performance.

This panel features 1" high-ribs that provide increased wind-uplift performance, and is highly recommended for residential and commercial roofing applications. The metal roofing system is snapped securely with concealed fasteners for greater resistance to weather conditions.

Standing Seam

RECOMMENDED 3:12 PITCH AND ABOVE	24 GAUGE OR 26	16" OVERALL COVERAGE	1" MAXIMUM RIB HEIGHT
--------------------------------------------------	------------------------------------	-----------------------------------	------------------------------------

 Galvalume
(20-Year)

 Color
(40-Year)

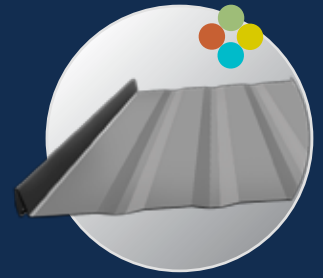

Specifications:

- > Concealed fastener panel: Roof and wall applications.
- > Snap locking ribs.
- > Screw flange installation.
- > Suitable for solid decking.

Substrates and Coatings:

- > 24 and 26 gauge high strength steel.
- > Anti-corrosion AZ-50 Galvalume coating for painted and AZ-55 for unpainted steel.
- > 26 gauge available in 40-Year Paint-Warranty [Pg. 9]
- > 24 gauge available in Kynar 500 Paint-Warranty.

5V Crimp

A CLASSIC AND TIMELESS PROFILE

Durability | Leak Resistance | Timeless Design

5V Crimp – one of our classic metal roofing panels – is commonly recognized for its use on rural metal roofing projects (e.g. farm buildings), but it is also suitable for residential use.

Featuring a timeless profile design with incredible durability – i.e. the panel is built with special profile enhancements (“U” over “V”) to provide maximum leak resistance.

5V Crimp

24" Coverage

RECOMMENDED 3:12 PITCH AND ABOVE	26 GAUGE	24" OVERALL COVERAGE	1/2" MAXIMUM RIB HEIGHT
--------------------------------------------------	-----------------	-----------------------------------	--------------------------------------

 Galvalume
(20-Year)

Specifications:

- > Exposed fastener panel and wall applications
- > Suitable for solid deck or opening framing

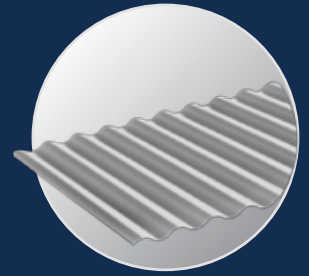

Substrates and Coatings:

- > 26 gauge high strength steel.
- > Anti-corrosion AZ-55 Galvalume coating.
- > 26 gauge available in 20-Year Galvalume

Corrugated

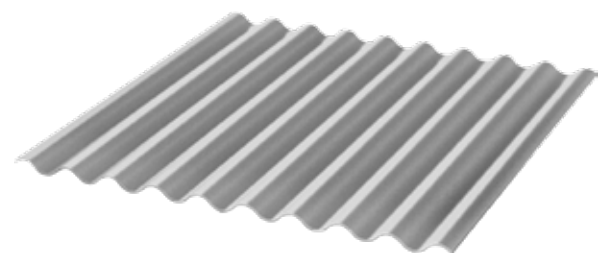

A CLASSIC AND TRADITIONAL PROFILE

Traditional Design | Good for Accent Applications

Corrugated is our classic profile panel and is the traditional staple used in agricultural metal roofing applications.

Featuring traditional aesthetics, and it is highly recommended for accent applications (e.g. backsplashes, ceilings, and accent walls).

Corrugated

RECOMMENDED 3:12 PITCH AND ABOVE	26 GAUGE	24" OVERALL COVERAGE	1/2" MAXIMUM RIB HEIGHT
--------------------------------------------------	--------------------	-----------------------------------	--------------------------------------

Specifications:

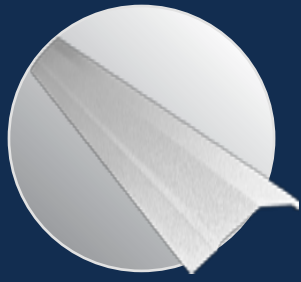

- > Exposed fastener panel and wall applications
- > Suitable for solid deck or opening framing

Substrates and Coatings:

- > 26 gauge high strength steel.
- > Anti-corrosion AZ-55 Galvalume coating.
- > 26 gauge available in 20-Year Galvalume
